Map Function:

```
function(doc) {
  var store, price, value;
  if (doc.item && doc.prices) {
    for (store in doc.prices) {
      price = doc.prices[store];
      value = [doc.item, store];
      emit(price, value);
    }
  }
}
```

Reduce Function (optional):

Run

Revert
