

# SORTING Comments by Post & date.

function(doc) {  
run once for each doc - rev.

if (doc.type == "comment") {  
not a join - restricted to one type.

emit([doc.post\_id, doc.created\_at], doc);

Array key

~~useful for group-by reduces~~

THE  
COMMENT  
(for display)

useful for group-level reduces,  
eg. # of comments per post.

}  
};
