### Bonnie on a USB Stick

6 days ago

Surprise, surprise, this \$15 USB SanDisk is not that fast. The file size is less than my physical RAM, because the stick is only 1.86 GB Here's a Bonnie run against the USB Stick: File '/Volumes/STICK/Bonnie.i273', size: 1677721600  
——Sequential Output—— —Sequential Input— —Random— -Per ...

### CouchDB Edge: Security and Validation

12 days ago

Damien committed some new security features just before the holidays. I've got to go through and understand them anyway, so here's a blog of the dive. First stop, couch\_tests.js Anytime you want to catch up with CouchDB's bleeding edge, the first stop is couch\_tests.js. It's just a series of Javascript tests that run f...

### Two CouchDB Podcasts

3 weeks ago

While in SF, I participated in two podcasts about CouchDB. The first one was an interview with Fabio of Akita on Rails and the Rails Podcast Brazil. He asked some very good questions, and did a great job drawing out the important things about CouchDB. You can find the podcast here. If you are still learning about CouchDB, this interview hits al...
